# DAMIANI

HANDMADE IN ITALY SINCE 1924

The Damiani jewelry house was founded by Enrico Grassi Damiani in 1924 in the Italian town of Valenza. Damiani's jewelry stood out from that of his competitors and caught the eye for its refined and luxurious design, so he soon became the personal jeweler of several noble families.

Now the Damiani brand is the most popular and renowned Italian jewelry house – it has received the Diamond International Awards – the “Oscar” of the jewelry world – 18 times.

Beauty and harmony are the stylistic hallmarks of Damiani jewelry, in which every single detail contributes to the overall aesthetic perfection.

CARRERA y CARRERA  
M A D R I D

A famous Spanish jewelry house Carrera y Carrera was founded in 1885. The delicate handmade pieces quickly gained popularity among noble buyers and soon won favor with the royalty from the Habsburg family.

The international expansion of the brand began in 1970. During the period of rapid growth, the company created its unique Carrera signature style. It symbolizes Spain: its proud spirit, cheerfulness, sense of beauty, and energy.

# PASQUALE BRUNI

The history of the brand began in 1976, when a young Italian designer Pasquale Bruni together with five other jewelers set up the Gioielmoda company, which successfully operated for more than 30 years.

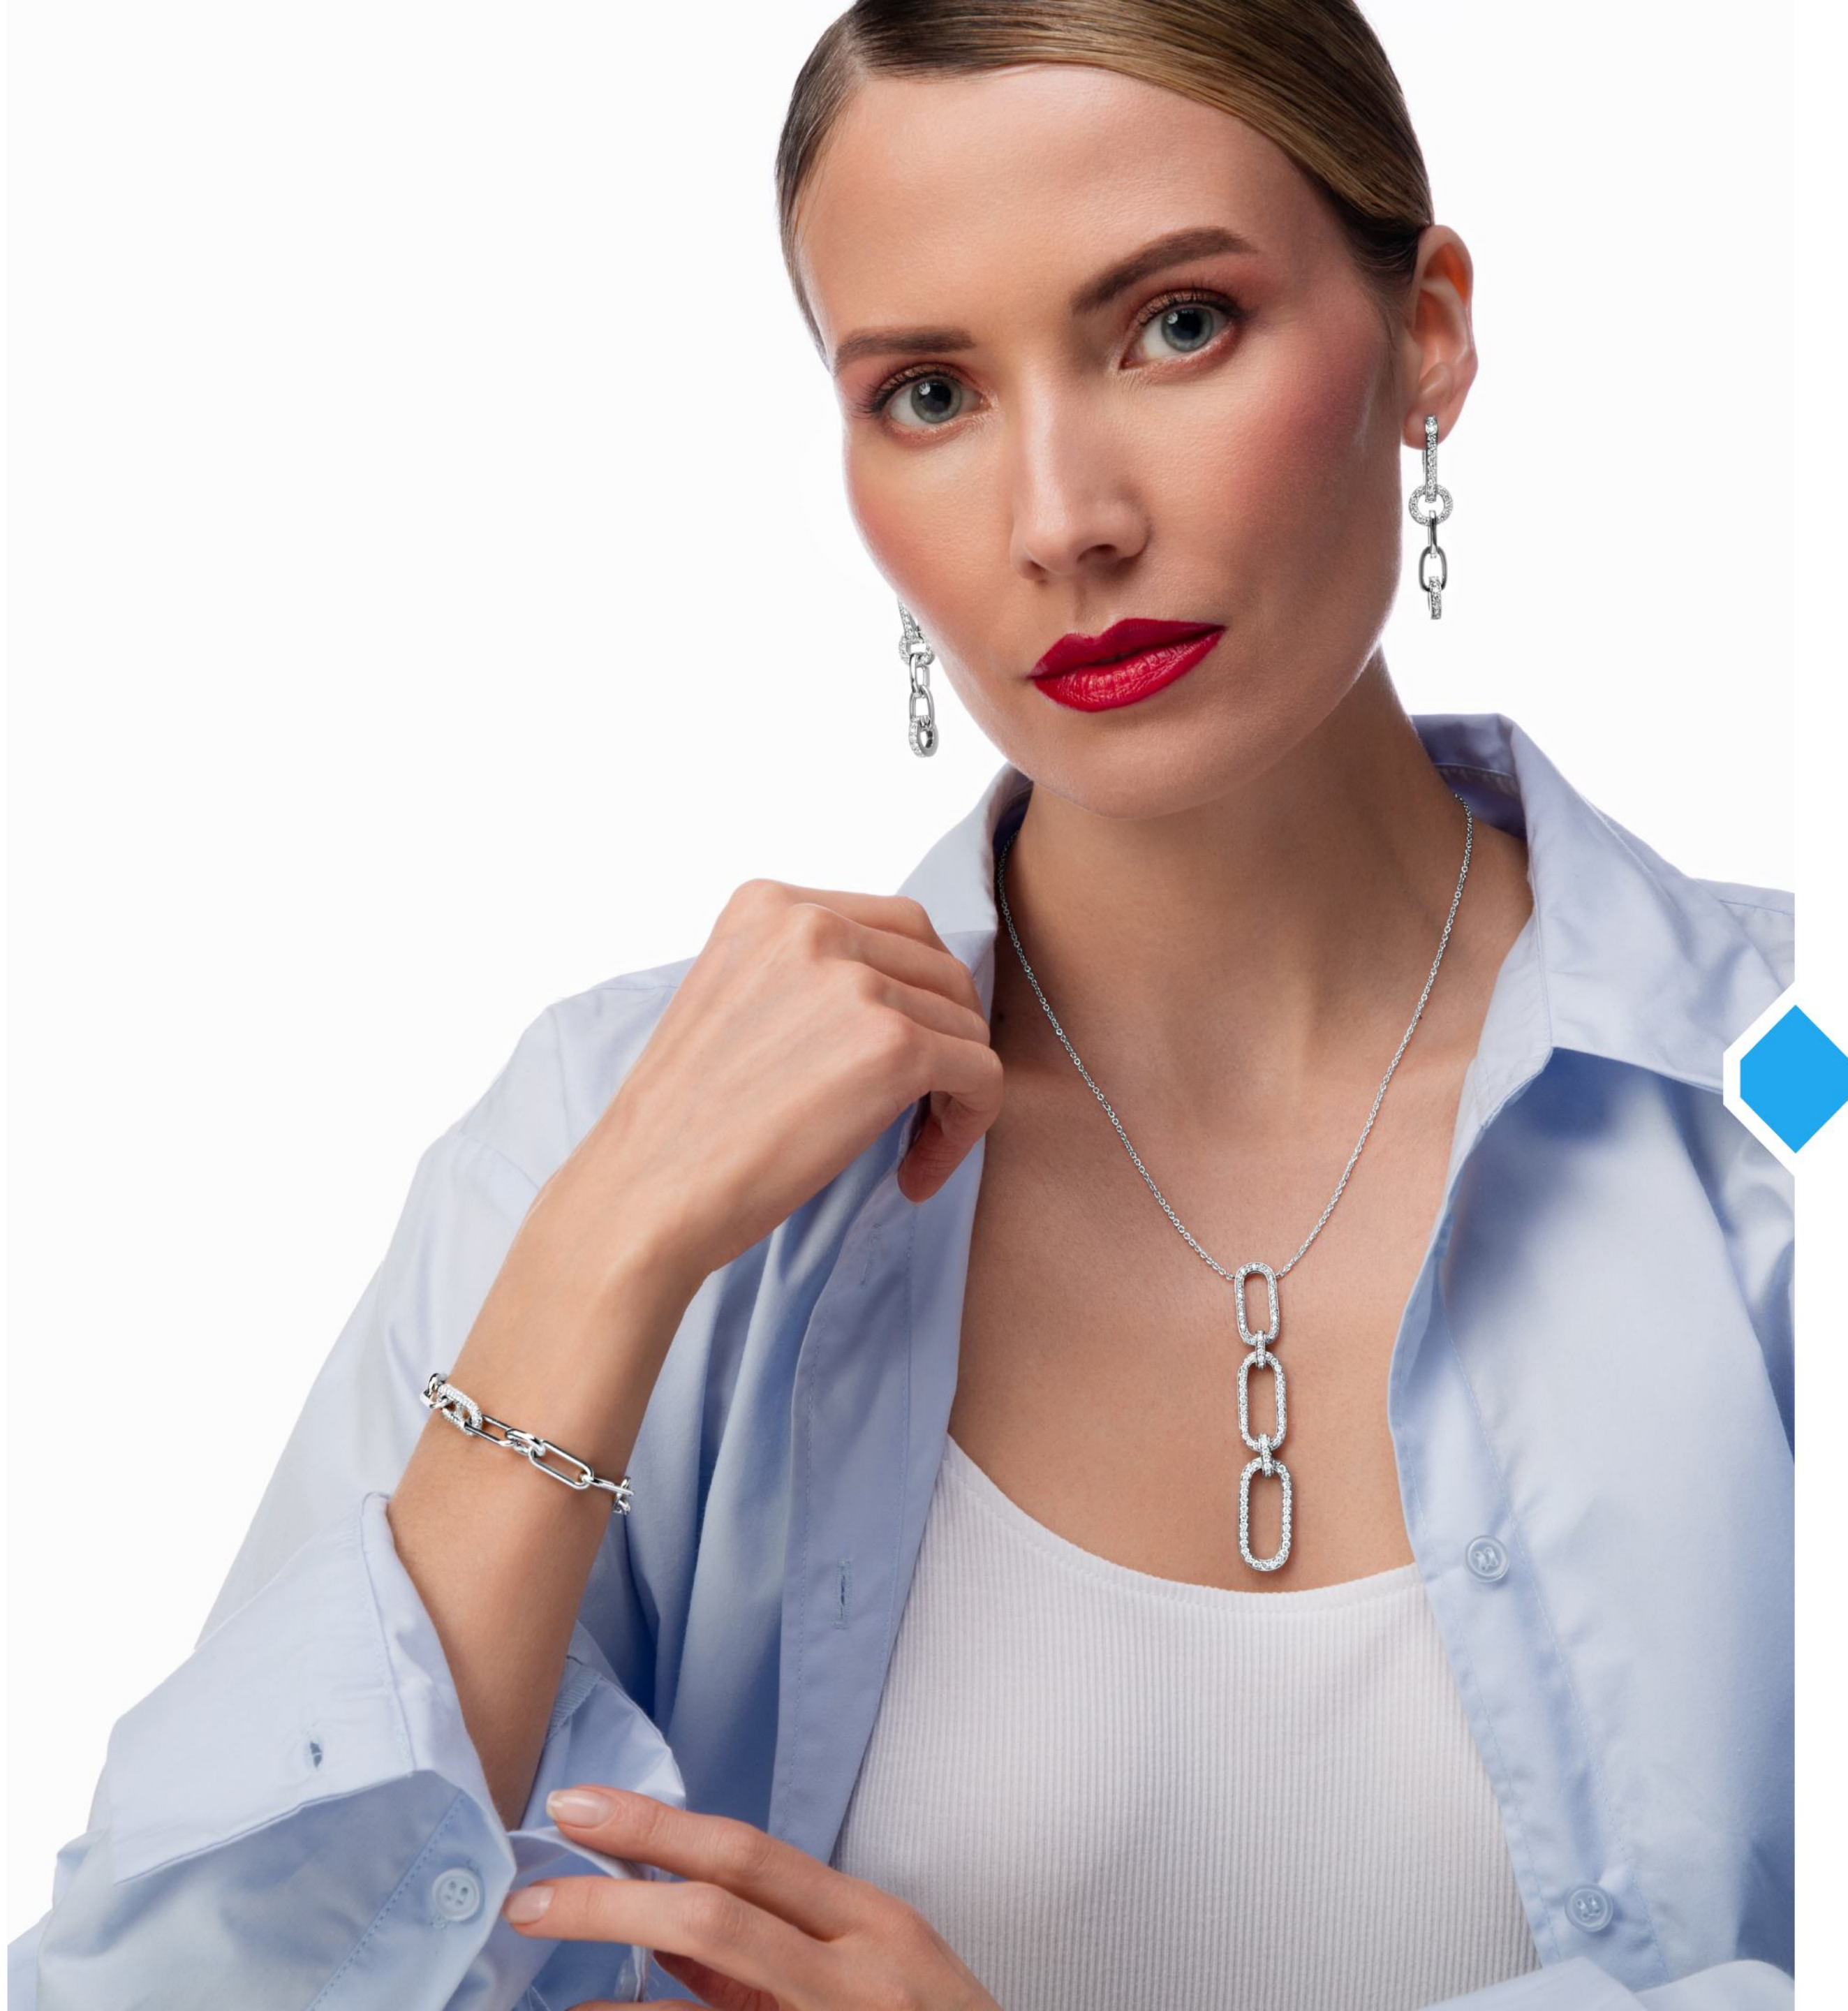

In 1997 Bruni separated from his companions and began to develop his personal brand, which he named simply Pasquale Bruni. A flower with five petals became the symbol of the brand. It decorates all the pieces in Bon Ton collection.

Today the Pasquale Bruni company is one of the most famous not only in Italy, but also in Europe and Asia. The brand's products are sold in more than 350 boutiques all over the world.

**CRIVELLI**

Crivelli Gioielli was founded in 1970 by an Italian jewelry master Bruno Crivelli in the town of Valenza. In more than fifty years of its history, the company has worked its way up from a small workshop to one of the largest and most recognizable brands in Italy.

Today, the company's showcases feature the authentically Italian product with a characteristic combination of diverse styles. It is safe to say that the designers meticulously choose the best of the world's jewelry practice and create their unique Crivelli collections.

Piero Milano  
GIOIELLI

In 1953, Piero Milano founded the company that bears his name in the Monferrato region, in the heart of Italy's historic jewelry district.

From its very inception, this has been a family business that has always strived for a global approach in sales. That is why today, seventy years later, Piero Milano jewelry is widely known and loved outside of Italy. The geography of sales includes more than 50 countries, from Japan and China, to the Middle East, the United States, Mexico, and Argentina.

ValentinaCallegher

Fine Italian Jewellery

By the standards of the jewelry world, the company Valentina Callegher is relatively young. It was created in the 1980s as an atelier that specialized in the design and production of jewelry for more prominent jewelry brands.

In 2015, this 30-year experience was embodied in the Valentina Callegher brand's own collections, which combined the traditions of Italian "well made" jewelry art with modern trends in jewelry design and production.
